

ROBOTIC LIVER TRANSPLANTATION WEBINAR

PRESENT AND FUTURE OF MINIMALLY INVASIVE LIVER TRANSPLANTATION

Webinar Objectives:

- Explore the latest innovations in robotic liver transplantation with insights from internationally renowned experts.
- Review a clinical case to discuss indications, patient selection, and step-by-step breakdown of the robotic approach.
- Learn key tips and tricks including a focused analysis of the technical challenges and critical pitfalls of the procedure.

 Friday September 12, 2025

 9:00 AM (EST)

INTERNATIONAL LIVER
TRANSPLANTATION SOCIETY

SPEAKER

Dr. Mafalda Sobral

Case presentation of a robotic whole graft liver transplantation

SPEAKER

Prof. Dieter Broering

Robotic approach in living donor liver transplantation donors "one size fits all?"

SPEAKER

Prof. Fabrizio Di Benedetto

Pros and cons of whole graft robotic transplant

SPEAKER

Dr. Adeel Kahn

Future perspectives and health related costs of robotic transplantation

MODERATORS

Dr Ashwin Rammohan

Prof. Paolo Magistri
